Faculty Positions in Information Security

Department of Electrical Engineering
National Taiwan University

As part of the national policy to promote information technology and strengthen information security education, the NTUEE invites applications for the following faculty openings at all ranks (Professor, Associate Professor, and Assistant Professor):

Openings in, but not limited to, the following areas:
Malware Analysis, Network Security, IoT Security, Secure Software and Testing, Secure Coding, and Cyber-physical Security, Cloud Security, Virtualization Security, Token Network Security, Security for Metaverse.

Under the enhancing information security faculty and flexible wage program, the employment will be offered with base salary set forth by the Ministry of Education, plus up to 1.2 million NTD additional pay per year until December 31st, 2024. Additional merit pay may include grants from the 2030 Cross-Generation Young Scholars Program of National Science and Technology Council (NSTC), grants from industrial projects, etc. Further information is available in the NTU Faculty Handbook (http://event.ntu.edu.tw/facultyhandbook/en/about-ntu/).

Candidates should send the required materials to deptee@ntu.edu.tw as soon as possible. All applications will be reviewed upon receipt until the posts are filled. The employment starting date shall align with the academic semester schedule (Feb. 1 or Aug. 1).

Required materials:

1. Cover letter, including the rank of position and expected on-board date
2. CV, along with a full publication list and a teaching and research plan
3. Up to 5 recent publications (consisting of major publications within the recent five years and additional publications within the recent seven years)
4. Two or more reference letters (separately emailed to cmli@ntu.edu.tw by the referees)
5. Ph.D. degree certificate (or an original certificate of expected graduation)
6. Undergraduate and graduate transcripts.
